2. The application has been amended as follows:

The specification has been amended at page 1, paragraph [001] as follows:

~~[0004001]~~ The present application claims the benefit of U.S. Provisional Patent Application Serial No. 60/226,117 filed August 18, 2000, which is hereby incorporated by reference as if set forth fully herein, and is further a continuation-in-part of US Patent 7,257,581 B1 ~~co-pending U.S. Application serial No. 09/923,285 (Attorney Docket 47334-0006)~~ filed August 6, 2001, which claims the benefit of U.S. Provisional Patent Application Serial No. 60/223,232 filed August 4, 2000.

3. The following is an examiner's statement of reasons for allowance:

Applicant's response filed June 05, 2008 are found persuasive. Claims 1, 5, 9, 13 and 63 are independent claims. Regarding independent claim 1, the prior art of record fails to teach the following limitation: *transferring the consumer profile information from*

*the host server to a central data repository for storage in a plurality of information accounts associated with a plurality of different consumers, logically associated with a plurality of exchanges each information account associated with at least one exchange, wherein an exchange comprises a group of one or more servers that are authorized and configured to accept the consumer profile information from a particular information account at the request of a consumer.* The limitations of independent claims 5 and 9 parallel independent claim 1; therefore they are allowed for similar reasons. Regarding independent claim 13, the following limitation is not disclosed as claimed: *transferring the consumer profile information from the host server to a central data repository for storage in a plurality of information accounts, associated with a plurality of different consumers, collectively associated with a plurality of exchanges, each of said exchanges comprising a logical grouping of one or more servers communicating with each other over a distributed network, and each information account being associated with at least one of said exchanges, wherein the one or more servers are authorized and configured to accept the consumer profile information from a particular information account at the request of a consumer.* Regarding claim 63, the following limitation is not taught as claimed: *said client device executing a browser for interacting with a web page file hosted by said vendor server, wherein the vendor server is a member of an exchange comprising a logical grouping of servers authorized to interact with one or more of the branded information accounts; and wherein said host server is further configured to receive selected consumer information elements from the central data repository in response to requests from the network devices, and to transmit the*

*selected consumer information elements across the distributed network for use by the requesting network devices.*

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
